YOU HOLD THE KEY TO STUDENT SUCCESS

With your commitment to family engagement, you hold a powerful key to unleashing educational success.

Family Leadership Inc. and our network of experts will partner with you to achieve practical, manageable, and sustainable outcomes.

Together, we will celebrate transformative results as you bring your district positive, engaged families that measurably improve student success.

WE FOCUS ON ALL THREE CRITICAL OUTCOMES.

School districts now, more than ever, must be certain they will see results from a parent capacity-building program they select. Family Leadership Inc., through our Parenting Partners program reliably achieves three essential outcomes:

♦ Academic improvement in areas such as reading levels, college/career readiness, and grades.

♦ Building the capacity of parents for positive school engagement through top-level professional development for parents and other leaders.

♦ Developing a thriving home learning environment.

We have a verifiable track record of success with more than 200,000 parent leaders. Extensive research shows that these families are now structured for success. We measure what we do, and can provide excellent references from districts nationally.

WHAT IS PARENTING PARTNERS?

Parenting Partners workshops combine parenting and leadership skills that empower parents to become vital contributors to their children’s academic success. The comprehensive workshops are presented by each school’s own trained facilitator team multiple times year-round, in multiple languages, creating a sustainable source of parent leaders.

How is our program for family engagement different?

♦ We build parenting and leadership skills that produce effective parents and more successful students.

♦ Our district partners gain momentum with family engagement that expands capacity each year, creating a thriving, sustainable system.

♦ With our network of partner districts we build the capacity of family engagement resources each year with new workshop series and online resources.

THIS IS COMPREHENSIVE, SUSTAINABLE ENGAGEMENT

Through an ongoing and systematic training of parents as partners, graduates of Parenting Partners enhance the district’s capacity for powerful family engagement.

♦ Our methods produce evidence-based positive outcomes that deliver results year after year.

♦ Our extensive evaluation and reporting provide the vital data district leaders need.

♦ We manage the administrative duties with our Team Support Specialists, serving as dependable partners to district leaders and principals.
WHAT DOES PARENTING PARTNERS LOOK LIKE?

◆ Parenting Partners operates with school site based teams led by local leaders. These presenters - parents and staff - are highly credible to parents!

◆ The team strategically invites parents to become a cohort for six weeks of parent leadership training called Parenting Partners. Workshops can be led in Spanish, English, and other languages.

◆ The site based teams increase their capacity to reach more parents because they add parent graduates to their presenting teams. This enables them to offer the Parenting Partners workshops multiple times a year, and to add additional workshops from the Parenting Partners Pro lineup.

HOW DO WE LAUNCH YOUR TEAMS?

◆ Principals select a great team of 4-6 parents and staff to serve as workshop presenters.

◆ The national Parenting Partners team trains and launches the school site teams during a two-day TOT training in your district.

◆ The local teams reach hundreds of parents in exciting Parenting Partners workshops. Our staff support your school site teams year-round.

HOW DO WE SUSTAIN YOUR TEAMS YEAR-ROUND?

Principals love Parenting Partners because we support your teams! Nothing falls back onto the principals’ desk.

◆ Each school team receives a dedicated coach from our national staff during the training launch. Our coaches support your teams year-round.

◆ During training, each school team creates a detailed implementation plan that supports the key academic goals of the school and district, i.e., inviting 3rd grade parents, resulting in students reaching 3rd grade reading levels; or 7th and 9th grade parents to increase college readiness.

◆ Our coaches then support your team through every phase: Inviting parents, leading the workshops, evaluation, and planning for the next series of workshops.

OUR EXTENSIVE EVALUATION & REPORTING FUEL SUSTAINABILITY.

◆ Parenting Partners systematically produces effective families with measurable results.

◆ The school and district receive high quality data from the post surveys.

◆ We compile data into practical, highly illustrated reports that will encourage your teams and boost your compliance results.
LEVERAGE OUR EXPERIENCE FOR YOUR NEEDS!

♦ More than 200,000 parents have benefitted from the comprehensive parent leadership training they’ve received from Parenting Partners. No wonder it’s the most widely used parent leadership system.

♦ Parenting Partners becomes a locally-owned resource to involve parents in Academic Improvement and positive leadership. It extends the reach of teachers and administrators challenged by limited budgets and resources.

TOGETHER WE IMPLEMENT THE LEADING FRAMEWORKS IN PARENT & FAMILY ENGAGEMENT.

We empower parents and school leaders to apply the leading frameworks for Family School Partnerships from Harvard, Columbia, SEL, Johns Hopkins, and the U.S. Department of Education.

♦ We bring your parents the Parent Roles in Student Achievement from the 2019 Partners in Education--A Dual Capacity Building Framework published by the U.S. Department of Education.

♦ Parents become experts in these Parent Roles developed by Dr. Karen Mapp from the Harvard Family Research Project. Parents grow in their Roles in Encouraging, Supporting, Creating Structure, Communicating, Leadership, Modeling, Collaborating, and Partnering.

♦ Parents will put in practice Dr. Joyce Epstein’s Six Types of Parent Involvement from the National Network of Partnership Schools at Johns Hopkins University.

♦ Parenting Partners provides parents with the practical tools that support Social and Emotional Learning (SEL), the process of understanding and managing emotions, setting positive goals, showing empathy for others, establishing positive relationships, and making responsible decisions.

♦ We bring parents the best practices in managing social media and screen time from Columbia's CASA and leading medical researchers.

You will bring the best research and frameworks to life with Parenting Partners, so they become best practices for your families!

IT'S EASY TO GET STARTED!
